**32nd Annual Catalog of CHRYSANTHEMUMS**

## ROOTED CUTTINGS ONLY

THE DATES given in regard to maturity are based on average growing conditions from May and June planting. However, growing and climatic conditions being different in some localities, they must be taken into consideration in the maturing of the crop.

We specialize in rooted cuttings of Chrysanthemums taken from strong stock plants field-grown for this purpose only.

We solicit correspondence regarding any feature of our Catalog or terms of sale.

Respectfully yours,

GARRETT-OLSEN CO.

## WHITE—

**Alek Stribbling**—One of the finest large pure white singles we have ever seen. Grows to immense size when disbudded six or seven stems to a plant. Good strong stem with small dark green foliage. Splendid sturdy substance for cutting, taking the water well. Long medium sized petals, reflexing from a bright golden center. Florists and commercial growers will find this among their best sellers, and it fills a long need for an early, large white single. Matures the latter part of October, having a long blooming period. Medium height.

<b>Anne</b>	—Small, one row of petals.....
<b>Betty Millard</b>	—Snow white. Sturdy and very prolific. Fine pot plant, and a good keeper.....
<b>Laura</b>	—Pure white, strong stem and foliage. Very prolific. Fine for cutting.....
<b>*Mensa</b>	—Purest white, large.....
<b>*White Fragrance</b>	—Similar to White Mensa, but more productive and taller.....
<b>Yukon</b>	—Medium size flowers of pure white; bright golden center .....
